Basic state constables assisting your department as volunteers will, while participating in activities of your department, at all times be under the exclusive direction and control of your department and its members.

Assisting basic state constables will remain in the company of a full-time, on-duty officer, unless temporarily separated due to circumstances arising during a call for service or other unforeseen situation making such separation essential.

Advanced state constables may work under proximate supervision from your department. Proximate meaning radio contact with a certified, on duty officer who is in a position to respond immediately to the constable's position.

The State Constable Program is not intended, and may not be used, to supplant full time law enforcement officer positions. The purpose is to supplement and assist law enforcement agencies.

If you should have any questions, please call me at (803) 896-7029.
